L0-2 Advanced Facility Plant Operator License Preparatory 3-Day Seminar

Cost: \$650.00 includes all seminar fees and student text. (For on-site, call us for price quotes)

Intended Audience: Operators, Maintenance, Technicians, and Management

Prerequisites: 2 years experience operating experience.

This 3-day Advance Facilities Boiler Seminar is designed to maximize efficiency, safety and performance.

This advanced seminar was designed for anyone preparing to take a Second or First Class state, city, municipally or American Society of Power Engineers Facility Plant Operating Engineer or Stationary Engineer Exam.

OMCSI has several years experience in the design and preparation of license examinations and training for municipal and third party licensing agencies. Our training courses are continuously monitored to meet changes in Power Engineering regarding regulations, new technology or equipment. Although we develop license examinations for other entities, we only provide training in areas that test may come from. OMCSI not only provides training courses based on equipment technical knowledge but our courses place emphasizes on safe operation and maintenance.

The 3-day seminar trains the operator in reducing energy costs reduced maintenance headaches to increase production profits! You will receive training on how different types of steam system components work and how to apply them to optimize the performance of your Facilities' Plant Boilers.

This course is instructed by an American Society of Power Engineers Licensed Technical Instructor. These instructors must be seasoned instructors and maintain their credentials to carry this esteemed license.

Seminar Outline:

- Steam Boiler
- Steam Boiler Fittings and Accessories
- Basic Boiler Room System
- Steam and Water Accessories
- Fuel Burning Equipment
- Draft System
- Combustion Controls
- Instruments
- Boiler Water Treatment
- Steam Boiler Operations
- Environmental Regulations and Equipment

ASOPE Facility Operating License testing is available at the end of this course for qualified individuals by request only.
